Grand Canyon Gas Logs

Established in 2013 Grand Canyon Gas Logs was designed to bring quality, realism and American Manufacturing back to the hearth industries gas log market. Scouring the Southwest for the perfect logs, each log is individually cast and hand painted to perfection. Grand Canyon Gas Logs is a combination of the industry’s most authentic looking ceramic refractory logs and the highest quality manufactured array of burners. Designed, engineered and manufactured in the United States, Grand Canyon Gas Logs combine both American pride into each log and burner they build. Manufactured in the Heartland of America, our burners feature fully welded construction for perfect positioning and 304-20 gauge stainless steel frame for quality which is unmatched in the gas log market. All products manufactured by Grand Canyon Gas Logs carry a lifetime warranty when installed inside your fireplace. Take a look at our full line of indoor and outdoor products to truly understand the Grand Canyon Gas Log difference.

Who Is Kyle?

Kyle is a real bearded man scanning the Arizona countryside in search of the finest logs. This is not a mythical creature that we have created but a real person that would love to shake your hand. Kyle’s jolly spirit is infectious and his tenacity and work ethic is unmatched by any log hunter of his kind. The spirit of Kyle is the foundation of Grand Canyon Gas Logs striving to bring quality to an old industry. Grand Canyon Gas Logs, “Real Logs From Real People”.

CERTIFIED REALISTIC
HOT SERIES FIBER LOGS

HOT SERIES FIBER LOGS

High Output Technology "HOT" Series is an innovative combination of the heating properties of fiber and the detail properties of a ceramic refractory log. Casted off our Arizona Weathered Oak Charred Logs and our Blue Pine Split Charred Logs, the HOT Series was designed to make a fiber log look like a ceramic refractory log. Besides the great look the HOT Series, these functional logs produces 33% more heat than our ceramic refractory equivalent. Available in a 24" size, HOT Series puts more heat in the room and less heat lost up the chimney.

ARIZONA WEATHERED OAK

Logs were found in the mountains of the Northern Arizona forest. In fact, all of the logs that make up this collection were gathered from one tree that was hit by lightning more than 40 years ago. The effects of the lightning strike created bulges, twisting and cracking in the wood which are unique to our Arizona Weathered Oak collection.

Available sizes 18”, 42”, Front View & See Through
ARIZONA JUNIPER

is found in the washes and valleys of the Northern Arizona terrain. Much of the character of the natural wood comes from the rainy winters and hot summers causing erotic cracking and wild twisting in the wood. Our log hunters hiked the washes hand-picking each of the logs that sit in the Arizona Juniper sets. Take notice of the detail in each one of the logs that feature deep cracking, pitting and natural wood decay only perfected by Mother Nature.

Available size 18” - 42”; Front View & See Through
Blue Pine Split logs were found in the bark beetle ravaged forest in Northern Arizona. The infestation of beetles left behind acres upon acres of down trees, however it created unbelievable wood character only captured in the Blue Pine Split collection.

The deep grain pattern and gray highlights make this split look like the wood was split right in half in your fireplace. Don’t like the split, reverse the log to showcase the fantastic Alligator bark.

Available in sizes 18”, 24” & 30” in front view only.

Logs shown on this page have the Alligator bark facing out.
ARIZONA WEATHERED OAK CHARRED

collection combines the detail and beauty from our native series and adds the extra dimension of an authentic charred look. Our log hunters hand-picked each of the logs and then burned the front logs right in half. Once burnt the logs are molded to capture the most realistic looking charred set on the market.

Available sizes: 3’’ - 6’’
QUAKING ASPEN

is Grand Canyon Gas Logs signature birch set. This traditional birch log set balances the cream whites with the scoured black bark from the winter snows.

Available sizes 18", 24" & 30"

MOUNTAIN SPLIT OAK

Available sizes 18", 24" & 30"

WESTERN OAK

Available sizes 18", 24" & 30"
KIVA SERIES

A Southwest favorite, the Kiva Series has been found to be a very versatile burner system. Designed to fit Adabelos, Kiva fireplaces, burners 18, 24, and 30 have actual overall widths of 12”, 18”, and 24”. With an overall depth of 9”, this burner packs a punch for its small stature. Log options available are the Arizona Weathered Oak or the Arizona Juniper.

JUMBO SERIES & JUMBO SLIMLINE SERIES

Our Jumbo Series matches our massive Jumbo burners with our hefty Jumbe Arizona Weathered Oak Logs. The 18”, 24”, and 30” burners are a perfect complement to the 12” diameter of the Jumbo Arizona Weathered Oak front log. Big trees and log legs are not all this collection has to offer, as massive flames are the real part of this 3-head beast. Available in sizes 36”, 120”, front view and see through. Jumbo burners have a depth of 21” and the Jumbo Slimline burners are 18” deep.
GAS BURNERS

Grand Canyon burners are manufactured with American pride in the Heart Land of the United States. Our 2 & 3 burner systems are ANSI certified from sizes 18” - 42” and all burners manufactured are factory tested to meet ANSI standards. STAINLESS STEEL pans and Schedule 40 hard pipes are just some of the reasons Grand Canyon burners stand out from the rest. With a lifetime indoor use warranty our burners are built to stand the test of time.

1 Burner
