

TOWN & COUNTRY LUXURY FIREPLACES

TOWN & COUNTRY  
**WS54 Outdoor**

Town & Country sets the benchmark in premiere fireplace design with this massive panorama of flames. Built to face the elements, the Widescreen WS54 Outdoor can withstand sub-zero temperatures while the disappearing ceramic glass ensures Town & Country's signature bold flames are always protected from wind. To withstand the challenges of the outdoor environment, Town & Country outdoor fireplaces make extensive use of 304 stainless steel, including all components exposed to the elements.

Due to elevation and fuel type, flame characteristics might not be exactly as shown. Visit a showroom near you to experience the true beauty of live Town & Country flames.

TOWN & COUNTRY  
**TC42 Outdoor**

The TC42 outdoor fireplace creates a captivating focal point in your outdoor space. It's the perfect combination of elegant form and reliable function. The sealed firebox protects your luxury fireplace from the elements, while disappearing ceramic glass - encased in a stainless steel frame - prevents any disruption from wind and ensures a clean, clear view of the sizable flames. To withstand the challenges of the outdoor environment, Town & Country outdoor fireplaces make extensive use of 304 stainless steel, including all components exposed to the elements.

Due to elevation and fuel type, flame characteristics might not be exactly as shown. Visit a showroom near you to experience the true beauty of live Town & Country flames.

TOWN & COUNTRY  
**TC36 Outdoor**

Expand your living space with Town & Country's TC36 Outdoor gas fireplace. Whether your home is contemporary or traditional, our interchangeable firebox panels and burner options offer endless stylish possibilities. Create the perfect combination to complement your outdoor space decor and complete your design vision. To withstand the challenges of the outdoor environment, Town & Country outdoor fireplaces make extensive use of 304 stainless steel, including all components exposed to the elements.

TOWN & COUNTRY  
**WS54** See-Thru  
 Indoor-Outdoor

Our Widescreen WS54 See-Thru Indoor-Outdoor gas fireplace makes a striking architectural statement and takes outdoor living to a luxurious new level. The see-thru design extends your living space and provides a connection between interior and exterior areas allowing for all-season enjoyment. The generous, full flame profile is protected by disappearing ceramic glass and remains unaffected by the elements.

Due to elevation and fuel type, flame characteristics might not be exactly as shown. Visit a showroom near you to experience the true beauty of live Town & Country flames.

# TOWN & COUNTRY HELIFIRE 360

Our exciting new Town & Country HeliFire 360 adds a dramatic, eye-catching fire feature to any space. Its long, luxurious flame casts a seductive glow and makes a bold design statement wherever it's installed. The HeliFire 360 will be the dominant focal point to build your dream environment around.

Due to elevation, fuel type, vent length and orientation flame length may vary up to 30%. Visit a showroom near you to experience the true beauty of live Town & Country flames.

**THE POSSIBILITIES ARE ENDLESS**  
With its ingenious design and unique construction, HeliFire 360 offers endless installation options for every possible application - from vertical to horizontal and everything in between, one-sided to see-thru, indoor or outdoor. The only limit is your imagination.
