US32D/630 Satin Stainless Steel
US4/606 Satin Brass
Ceramic Coating available

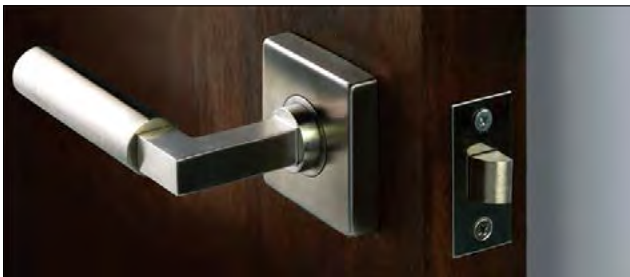

MORTISE LOCKS

Function:

Passage (F01)
Privacy (F22)
Office / Inner Entry (F04)
Classroom (F05)
Storeroom (F07)
Entry without Toggle
Entry with Toggle (F20)
Dummy Pair (MDP)

TUBULAR LOCKS

TL4 Latch - Commercial Grade

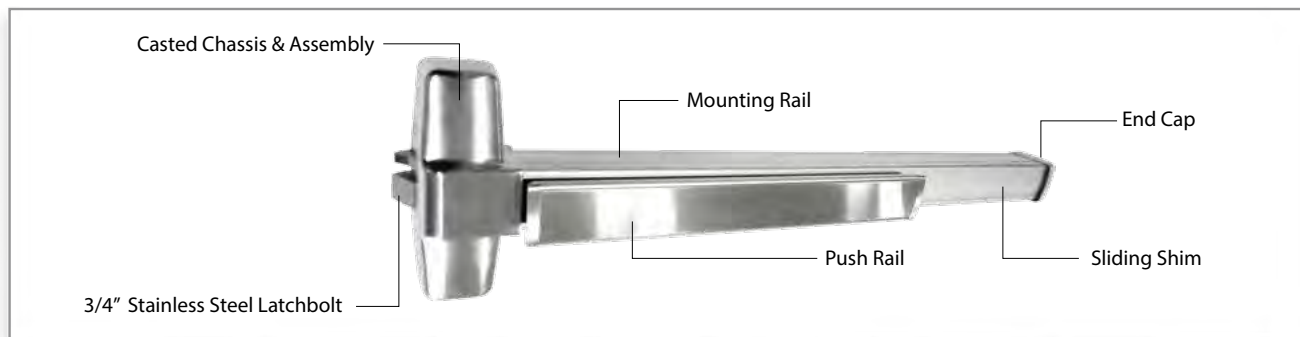

28 Degree Latch Retraction
Backset: 2-3/8" (60mm),
2-3/4" (70mm)
Function: Passage, Privacy
Option: UL 3 Hour fire rated latches

RIM EXIT DEVICES

Heavy Duty ANSI Grade 1 Commercial Exit Device

ED93/ED70 Series

Finishes

Stocking: US32 (ED93): US32 and AL (ED70)

Lever Options

INOX™ RIM Exit Devices are available with all lever designs (see inside cover).

Examples of INOX trim for Exit Devices

RA243 Sunrise

RA244 Twilight

Twilight is a return-to-door lever design that meets various state building codes for door openings.

Example of INOX trim for Exit Devices

02: Dummy - Entrance by trim when actuating bar is locked down

03: Night Latch - Entrance by trim when latch bolt is retracted by key in rim cylinder

14: Passage - Entrance by trim when latch bolt is released by lever. Always active, no cylinder

X SERIES GRADE 1 TRIM

For Mortise Locks

INOX® Grade 1 Trim has been created to provide new heavy-duty options for fire protection and security.

Features:

- Solid Stainless Steel Lever
- Hardened knurled brass nut for mechanical integrity and strength
- Cast Stainless Steel sub-rose
- Threaded Rose covers for easy installation
- Heavy duty wire torsion spring

Available Levers in X Series:

- 102 Munich (Solid version - 202)
- 105 Frankfurt (Solid version - 205)
- 221 Aurora
- 243 Sunrise
- 244 Twilight
- 345 Tokyo
- 346 Osaka

ACCESSORIES

Why Stainless Steel?

Corrosion Resistant: Stainless Steel is one of the world's most corrosion resistant metals. As such, it makes an ideal metal for use on exterior doors, which are subject to extreme weather conditions. While Stainless Steel is corrosion resistant it still must be maintained and cleaned on a regular basis.

Environmentally Friendly: Unison Hardware has a stellar track record with our stainless steel manufacturing. Our factories use state of the art manufacturing processes which dramatically reduce carbon emissions, conserve energy, and use recycled raw materials.

Beauty: INOX™ line of stainless steel products brings out the attractiveness of this metal by highlighting the beauty of the nickel content. Our hand polishing reveals the elegant color and smooth texture of this rich metal and ensures a long lasting finish compared to most plating finishes.

INOX™ Stainless Steel Finishes

- Satin Stainless Steel (US32D/630)
- Bright Polished Stainless Steel (US32/629)
- Satin Stainless Steel and Bright Polished- SP (Satin on lever grip; Polished on Rose and Neck)
- Oil Rubbed Bronze (US10B/613)
- Ceramic Coatings (see page 07)

Ceramic Coating

Our INOX™ line now offers beautiful Ceramic Coating finishes in an array of colors.

Ceramic coating not only provides new color options, but offers effective abrasive-resistance qualities for areas with adverse weather conditions. See page 07 for more information.
