WARMING TRENDS®

The Warming Trends® Patent Pending CROSSFIRE® Brass Burner utilizes cutting-edge technology to produce a taller, brighter, fuller flame, replicating a natural, wood burning fire - all while consuming less gas.

Made from corrosion resistant and sustainable brass, CROSSFIRE® Brass Burners will not rust and come with a lifetime warranty. All burners are manufactured and assembled in the United States.

Warming Trends® specializes in:

- Custom designs
- Fastest delivery lead times in the industry
- Superior customer service

Side by side comparisons of a traditional stainless steel ring burner versus a CROSSFIRE® Brass Burner shows the difference in flame height and burn pattern.

Standard Ring Burner with 180K BTU's

CFB180 CROSSFIRE® Brass Burner with 180k BTU's

Six Steps to Purchasing

1. Measure the interior dimension of your fire pit.
2. Choose the corresponding Plate or Pan size. (Pans come standard with 2" welded sidewall).
3. Choose Burner and Fuel Type. (Natural Gas or Liquid Propane).
4. Choose your Ignition System: match lit, push button, or on/off switch.
5. Choose Electronic Add-Ons: remote control options, dial timers, and emergency stop buttons.
6. Complete the fire pit with Accessories: steel or ceramic logs, lava rock, or fire glass.

Know Before You Buy

Burner Size and Location

While your project is still in the planning stages, please consider your pit size vs. burner options. Please review our Burner Match for Common Interior Dimensions Chart on the following page to determine the best burner option for your fire feature. Burners must have 3" - 6" of clearance from all interior sides of the feature to avoid damage to the structure. Burners must be a minimum of 4" below the capstone.

BTU Supply

It is imperative to know the BTU supply at your fire feature to select the best CROSSFIRE® burner for your project. Remember to consider other appliances on the gas line (pool heater or grill) that may reduce BTU supply at the fire feature. CROSSFIRE® Brass Burners are designed to deliver an optimal flame height of 24" - 36" when supplied with the BTUs referenced in the burner name (CFB60 = 60,000BTUs). With a smaller BTU supply our burners continue to provide superior flame height. With a BTU supply 50% less than referenced in the burner, a CROSSFIRE® Brass Burners will deliver a flame height of 15" - 20". If BTU supply is a concern, please contact Warming Trends for recommendations and sample videos - we are here to help.

Gas Pressure

Gas supply pressure of the gas line should be measured by a gas professional to ensure Water Column pressure requirements are met. Natural Gas supply pressure at the fire feature should be between 3.5" and 7" Water Column Pressure; Liquid Propane supply pressure at the fire feature should be between 11" to 13" Water Column Pressure.

Burner Match for Common Interior Dimensions

Choose a burner based off of the inside dimension of your enclosure - the fire pit plate or pan must be 6" larger than the burner to provide at least 3" between the edge of the burner and the inside edge of the fire feature.

Standard Round or Square Fire Pits

INTERIOR DIMENSION	ROUND	SQUARE
24"	CFB120	CFB120
	CFBO180	CFBO180
30"	CFB180	CFB180
	CFB240	CFB240

36"	CFB240	CFB240
	CFB290	CFB290
	CFBO280	CFBO280
42"	CFBO360	CFBO360

Gas Pipe Size Charts

Natural Gas

Inlet Pressure: Less than 2 psi

Pressure Drop: 0.5 in w.c.

Specific Gravity: 0.60

Natural Gas flow is given in thousands of BTU/hour. One cubic foot of NG gas = 1000 BTU's.

Pipe length must include additional length for all fittings. Add approximately 5 feet of pipe per fitting.

Natural Gas Example: A burner that requires 374,000 BTU would need a 1" pipe for a 30' long run.

Natural Gas Pipe Sizing Chart

Length of Pipe (ft)	PIPE SIZE (inches)								
	½"	¾"	1"	1 ¼"	1 ½"	2"	2 ½"	3"	4"
10	172	360	678	1,390	2,090	4,020	6,400	11,300	23,100
20	118	247	466	957	1,430	2,760	4,400	7,780	15,900
30	95	199	374	768	1,150	2,220	3,530	6,250	12,700
40	81	170	320	657	985	1,900	3,020	5,350	10,900
50	72	151	284	583	873	1,680	2,680	4,740	9,660
60	65	137	257	528	791	1,520	2,430	4,290	8,760
70	60	126	237	486	728	1,400	2,230	3,950	8,050
80	56	117	220	452	677	1,300	2,080	3,670	7,490
90	52	110	207	424	635	1,220	1,950	3,450	7,030
100	50	104	195	400	600	1,160	1,840	3,260	6,640
125	44	92	173	355	532	1,020	1,630	2,890	5,890
150	40	83	157	322	482	928	1,480	2,610	5,330

Liquid Propane

Inlet Pressure: 11.0 in w.c.

Pressure Drop: 0.5 in w.c.

Specific Gravity: 1.50

Liquid Propane gas flow is given in thousands of BTU/hour. One cubic foot of LP gas = 2516 BTU's.

This chart refers to low pressure Liquid Propane, after regulation.

Pipe length must include additional length for all fittings. Add approximately 5 feet of pipe per fitting.

Liquid Propane Example: A burner that requires 787,000 BTU would need a 1" pipe for a 20' long run.

Liquid Propane Pipe Sizing Chart

Length of Pipe (ft)	PIPE SIZE (inches)								
	½"	¾"	1"	1 ¼"	1 ½"	2"	2 ½"	3"	4"
10	291	608	1,150	2,350	3,520	6,790	10,800	19,100	39,000
20	200	418	787	1,620	2,420	4,660	7,430	13,100	26,800
30	160	336	632	1,300	1,940	3,750	5,970	10,600	21,500

100	94	197	372	763	1,140	2,200	3,510	6,210	12,700
125	89	185	349	716	1,070	2,070	3,290	5,820	11,900
150	84	175	330	677	1,010	1,950	3,110	5,500	11,200

FOR CIRCULAR OR SQUARE OPENINGS

Designed for standard sized square or circular fire features, these CROSSFIRE® Brass Burners range from 60K to 500K BTUs.

When deciding which burner is right for you, remember:

- to consult the guides on pages 4 and 5 for information on pipe sizing, BTUs, and size compatability
- necessary clearances from the burner to capstone and other surroundings
- replacing a steel ring burner for a CROSSFIRE Brass Burner is simple

Need a different size? Custom shape? Questions about BTUs? We're happy to help. Call our Flame Consultants at 877 556 5255

CUSTOM DESIGNED BURNER SYSTEMS

Working one-on-one with clients across the country, we design, fabricate and build each piece to fit the unique requirements and style of every custom project. Give us the space, we'll fill it with fire.

Every CROSSFIRE Brass Burner is made in Colorado, is expertly designed, 100% tested, and backed by a lifetime warranty.

Whatever your vision, we can bring it to life.

FOR RECTANGULAR OPENINGS

Designed for standard sized rectangular fire features, these CROSSFIRE® Brass Burners range from 90K to 480K BTUs.

When deciding which burner is right for you, remember:

- to consult the guides on pages 4 and 5 for information on pipe sizing, BTUs, and size compatability
- necessary clearances from the burner to capstone and other surroundings
- replacing a steel ring burner for a CROSSFIRE Brass Burner is simple

Need a different size? Custom shape? Questions about BTUs? We're happy to help. Call our Flame Consultants at 877 556 5255

READY-TO-FINISH KITS

Aluminum frames covered with concrete board, ready to be easily and quickly completed with your choice of media or veneer.

FC42 shown

Circular Ready-To-Finish Kits

FC42NG
FC42LP

CFB120 Original Brass Burner • 42" W x 18" H Aluminum Frame with Concrete Board Attached • 24" Aluminum Pan with 2" Sidewalls • Fire Pit Vent Kit • ½" Flex Line Kit • Key Valve Extension
Ignition systems available: Push Button, 3 Volt, 24 Volt Spark Ignition, 24 Volt Hot Surface Ignition (SC)

FC54NG
FC54LP

CFB180 Original Brass Burner • 54" W x 18" H Aluminum Frame with Concrete Board Attached • 30" Aluminum Pan with 2" Sidewalls • Fire Pit Vent Kit • ¾" Flex Line Kit • FIT180 • Key Valve Extension
Ignition systems available: Push Button, 24 Volt Spark Ignition, 24 Volt Hot Surface Ignition (SC)

FC60NG
FC60LP

CFB290 Original Brass Burner • 60" W x 18" H Aluminum Frame with Concrete Board Attached • 36" Aluminum Pan with 2" Sidewalls • Fire Pit Vent Kit • ¾" Dual Flex Line Kit • FIT250 • Key Valve Extension
Ignition systems available: Push Button, 24 Volt Spark Ignition, 24 Volt Hot Surface Ignition (SC)

FC72NG
FC72LP

CFB350 Original Brass Burner • 72" W x 18" H Aluminum Frame with Concrete Board Attached • 48" Aluminum Pan with 2" Sidewalls • Fire Pit Vent Kit • ¾" Dual Flex Line Kit • FIT300 • Key Valve Extension
Ignition systems available: 24 Volt Spark Ignition, 24 Volt Hot Surface Ignition (HC)

Ready-to-Finish Kits come with a Fire Pit Vent Kit (FPVK) but they do not come pre-installed as placement and installation depends on veneer. Vents to be installed by contractor on site.

Warming Trends recommends 18 sq. inches of ventilation on opposing sides of the fire pit.

HAVE A CUSTOM PROJECT?

Custom bar height table design shown.

Warming Trends specializes in creative solutions for **custom designs.**

Working one-on-one with clients across the country, we design, fabricate and build each piece to fit the unique requirements and style of every custom project - *and we love the challenge.* You give us the space, we'll fill it with fire.

Every CROSSFIRE Brass Burner that leaves our Colorado headquarters is expertly designed, well-crafted, and backed by a lifetime warranty.

Whatever your vision, we can bring it to life.

Call us today to discuss your custom project.

UNIVERSAL PAVER KITS

Convert your paver kit to gas with a Warming Trends® Universal Paver Kit.

Warming Trends® Universal Paver Kits include everything needed to complete your paver fire pit.

Included in each kit:

- CROSSFIRE® Brass Burner
- Aluminum Plate
- Flex Line Kit
- Key Valve, Key, and Key Extension
- Universal Flexible Installation Collars

Confirm the interior dimensions of your fire pit to select the matching Warming Trends Universal Paver Kit.

IGNITION SYSTEMS

Light your fire feature with simplicity of a match, the push of a button or the flip of a switch.

MATCH LIT

All CROSSFIRE™ Brass Burners come standard as a manual Match Lit System. Light a match and turn the key valve to ignite your fire feature burner.

PUSH BUTTON IGNITION

Upgrade to an electric Push Button Ignition. Turn the key valve to on position and push the button to ignite your burner.

3 VOLT IGNITION

A battery-operated ignition system with on and off switch. 3 Volt Ignition supplies up to 120K BTUs. Remote control available.

3VIK-NG
3VIK-LP

3 Volt Electronic Ignition System: Spark Igniter + Control Module + D-Cell Battery Pack + 3 Volt Gas Valve + up to 120K BTU + Ignition Switch

24 VOLT SPARK IGNITION

24 Volt Spark Ignition supplies up to 400K BTUs. Includes step down transformer for use with 24 Volt/110 Volt supply. Remote control options available.

24VIKHC-NG
24VIKHC-LP

24 Volt Spark Ignition System: Spark Igniter + Control Module + 24 Volt Transformer + up to 400K BTU

24 VOLT HOT SURFACE IGNITION

24 Volt Hot Surface Ignition Standard Capacity supplies up to 290K BTUs.

24 Volt Hot Surface Ignition High Capacity supplies up to 512K BTUs.

Best option in high wind conditions. Includes state of the art weatherproofing technology.

Includes step down transformer for use with 24 Volt/110 Volt supply. Remote control options available.

P24VIKSCCG-NG
P24VIKSCCG-LP

24 Volt Hot Surface Ignition System - Standard Capacity: Hot Surface Igniter + 50VA/24VAC Transformer + Maximum Gas Output 290K BTU/hr

P24VIKHCCG-NG
P24VIKHCCG-LP

24 Volt Hot Surface Ignition System - High Capacity: Hot Surface Igniter + 50VA/24VAC Transformer + Maximum Gas Output 512K BTU/hr

Low voltage Premium Ignition available. Call a Warming Trends™ Flame Consultant to discuss the best ignition system for your CROSSFIRE™ Brass Burner.

ELECTRONIC ADD-ONS

Want to turn your fire feature on from your phone? We've got you covered. Electronic add-ons that keep your fire feature safe and easy to use.

3 VOLT REMOTE

(3VRC) On/Off Remote Control for 3 Volt Ignition System

24 VOLT KEY CHAIN REMOTE

(KCRC) On/Off Wireless Key Chain Remote Control & Plug In Receiver for 24 Volt Ignition System

24 VOLT BLUETOOTH REMOTE

(BTRC) On/Off Bluetooth Remote Control & Plug In Receiver for 24 Volt Ignition System. Connects to your smart phone.

DIAL TIMERS

Available in 2 hour and 12 hour options for automatic shut off, with or without NEMA Rated outdoor enclosure.

(DT2HR) 2 Hour Dial Timer

(DT2HRNB) 2 Hour Dial Timer with NEMA Rated Enclosure

(DT12HR) 12 Hour Dial Timer

(DT12HRNB) 12 Hour Dial Timer with NEMA Rated Enclosure

EMERGENCY STOP

(EMERSTOP) Push Button Emergency Stop with yellow shell and weather proof lift cover. Perfect for commercial properties.

Typically commercial projects require an Emergency Stop and electronic ignition. Consult your local code.

PARTS

FLKV12	For use with any burner up to 120K BTUs. Kit includes: (1) 36" L x 1/2" Diameter Flex Line + 1/2" Key Valve + 3" and 12" Key
FLKV34	For use with any 121K - 249K BTU burner. Kit includes: (1) 36" L x 3/4" Diameter Flex Line + 3/4" Key Valve + 3" and 12" Key
FLKV34FIT180	For use with any 121K - 249K BTU burner. Kit includes: (1) 36" L x 3/4" Diameter Flex Line + 3/4" Key Valve + 3" and 12" Key + 1/2" x 2" Nipple to connect threaded inside 3/4" Flex Line Flare Connector to 1/2" Plate Coupling
DLFKV34	For use with any burner over 249K BTUs. Kit includes: (2) 36" L x 3/4" Diameter Flex Lines + 3/4" Key Valve + 3" and 12" Key
DLFKV34FIT250	For use with any burner over 249K BTUs. Kit includes (2) 36" L x 3/4" Diameter Flex Lines + 3/4" Key Valve + 3" and 12" Key + (1) 3/4" x 1/2" MM Reducer Fitting and (1) 3/4" Tee for connection at 1/2" Plate Coupling+ (1) 3/4" x 3" Nipple and (1) 3/4" Tee for Key Valve connection
DLFKV34FIT300	For use with any 300K+ BTU burner. Kit includes: (2) 36" L x 3/4" Diameter Flex Lines + 3/4" Key Valve + 3" and 12" Key + (1) 3/4" x 3" Nipple and (1) 3/4" Tee for connection at 3/4" Plate Coupling + (1) 3/4" Tee for Key Valve connection
FIT180	Flex Line and Key Valve Connection Fitting for use with any burner under 249K BTUs. Kit includes: (1) 1/2" x 2" Nipple. Connects 1/2" Plate Coupling to inside threaded 3/4" Flex Line Flare Connector
FIT250	Flex Line and Key Valve Connection Fittings for use with any burner over 249K BTUs. Kit includes: (1) 3/4" x 1/2" MM Reducer Fitting and (1) 3/4" Tee for connection at 1/2" Plate Coupling + (1) 3/4" x 3" Nipple and (1) 3/4" Tee for Key Valve connection. Connects 1/2" Plate Coupling to (2) 3/4" Flex Lines + connection of (2) 3/4" Flex lines to 3/4" Key Valve
FIT300	Flex Line and Key Valve Connection Fittings for 300K+ BTU burner. Kit includes: (1) 3/4" x 3" Nipple and (1) 3/4" Tee for connection at 3/4" Plate Coupling + (1) 3/4" x 3" Nipple and (1) 3/4" Tee for Key Valve connection. Connects 3/4" Plate Coupling to (2) 3/4" Flex Lines + (2) 3/4" Flex Lines to 3/4" Key Valve
FL3612	36" L x 1/2" Diameter Flex Line (MM)
FLK3634	36" L x 3/4" Diameter Flex Line (MM)
KV12	1/2" Key Valve + 3" Key
KV34	3/4" Key Valve + 3" Key
KEY12	12" Key
KEY24	24" Key
KVE	6-12" Key Valve Extension
DRIPLEG12	1/2" Drip Leg Kit
DRIPLEG34	3/4" Drip Leg Kit
LPRH	LP Regulator mounted on 3/8" 10' Hose with handwheel quick connect. For use up to 70K BTUs. For use with a 20lb propane tank
LPHOSE10	LP 3/8" 10' Hose. For use with a 20lb propane tank
REGNG125	Regulator: 1/2" FNPT Inlet x 1/2" FNPT Outlet + For use up to 125K BTU's - Natural Gas
REGLP140	Regulator: 1/4" FNPT Inlet x 3/8" FNPT Outlet + For use up to 70K BTU's - Liquid Propane
ACCESS	16" x 16" exterior frame and 14" x 14" door opening for easy access to interior of fire feature
FPVK	Fire Pit Vent Kit: (2) 12" x 4" Vents + 18 square inches of vent area per vent
COLLAR	Paver Kit Adjustable Install Collar 19"
CFB60LP-DB	60K BTU CROSSFIRE™ Brass Burner on a 12" plate with ball valve for easy connection to 1lb propane cylinder

FPC62S	44" Square + 2 handles. For 60" opening.

Warranty

ALL CROSSFIRE BRASS BURNERS HAVE A LIMITED LIFETIME WARRANTY.

ALL WARMING TRENDS STEEL LOG SETS PURCHASED ON OR AFTER JANUARY 1, 2019, HAVE A LIMITED TEN (10) YEAR WARRANTY. ALL WARMING TRENDS FIRESTORM STEEL LOG SYSTEMS HAVE A LIMITED SEVEN (7) YEAR WARRANTY.

ALL BURNERS AND ELECTRONICS (IF PRESENT) MUST BE COVERED WHEN NOT IN USE OR WARRANTY IS NULL AND VOID.

Warming Trends™ warrants its products to be free from defective material and workmanship under normal service and use. This warranty covers manufacturing defects only and does not cover defects due to normal wear and tear; it does not warrant any product or part that has been altered, accidentally damaged, damaged in shipping, disassembled, modified, misused, neglected, failure to maintain, not installed, or not kept in continuous service after installation. **Warming Trends™** liability shall be restricted to the purchase price of the product only and makes no other warranty, express or implied, but not limited to, the implied warranties of salability and appropriateness for a specified purpose, with respect to its products and parts, whether used alone or in combination with others. **Warming Trends™** is free of liability for any damages caused by the unit, as well as inconvenience expenses, material or labor charges incurred by any service call, repair, removal or re-installation of any unit. Incidental or consequential damages are not covered by this warranty. Warranty does not cover damage to systems due to debris in the gas lines or damage to system due to water. Owner is responsible for reading and understanding warranty for full terms and conditions.

Warming Trends™, at its discretion, agrees to repair or replace defective product if returned to **Warming Trends™** within the warranty period. The respective warranty time periods are effective from the original date of purchase. The warranty is non-transferable and applies only to the original purchaser. In addition, this warranty is automatically void if the unit's serial number has been removed or altered in any way.

Ignition Systems Warranty

ALL BURNERS AND ELECTRONICS MUST BE COVERED WHEN NOT IN USE OR WARRANTY IS NULL AND VOID

Push Button Ignition Systems: There is no warranty offered on any push button ignition system.

Electronic Ignition Systems:

Residential Installations:

- 24VIK and 3VIK systems are fully warranted for one (1) year with a limited warranty for two (2) years from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, **Warming Trends™** will repair or replace the system at no cost for the first year. In the event a system fails after the first year from date of purchase and within two years from date of purchase, **Warming Trends™** will repair or replace the system for a cost of 50% of the current list price. This warranty does not cover labor costs.
- P24VIK systems purchased ON OR BEFORE April 15, 2018 are fully warranted for one (1) year with a limited warranty for two (2) years from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, **Warming Trends™** will repair or replace the system at no cost for the first year. In the event a system fails after the first year and within two years of date of purchase, the cost for a replacement system is at a discount rate of 50% of the current listed price. This warranty does not cover labor costs.
- P24VIK Systems purchased AFTER April 15, 2018 are fully warranted for three (3) years from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, **Warming Trends™** will repair or replace the system at no cost for the first three years. This warranty does not cover labor costs.

Commercial Installations:

- 24VIK and 3VIK systems are fully warranted for twelve months from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, **Warming Trends™** will repair or replace the system at no cost. This warranty does not cover labor costs.
- P24VIK Systems are fully warranted for one (1) year from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, **Warming Trends™** will repair or replace the system at no cost for 12 months from the date of purchase. This warranty does not cover labor costs.

Problems in the functioning of the systems due to gas plumbing or electrical installed by others are not covered by any warranty offered by **Warming Trends**.

No dealer, distributor, or other person has the authority to represent or warrant a **Warming Trends™** product beyond the terms contained within this warranty, and **Warming Trends™** assumes no liability for such warranty representations. Any questions concerning this warranty should be directed to the **Warming Trends™** corporate office.

Return Policy of Warranty Product

Any **Warming Trends™** product deemed by **Warming Trends™** as defective and covered by the warranty may be returned to **Warming Trends™** for assessment to determine if repair or replacement is necessary. In order to return a product, you must have a Return Merchandise Authorization number (RMA#). Please contact a **Warming Trends™** representative at the corporate office to obtain an RMA#. All returned merchandise must have the RMA# clearly printed on the outside of the package. Return shipping costs are the purchaser's responsibility. **Warming Trends™** is not responsible for product damaged or lost in transit. It is recommended that return items are shipped via a delivery service that can be tracked and/or insured to confirm receipt.

Minimum Advertised Pricing Policy

Effective January 1, 2017

Warming Trends™ Minimum Advertised Pricing Policy (MAP) is designed to protect our brand while also protecting our long-term brand building partners who sell our products.

MAP is the net price advertised for our products after any and all discounts, rebates, gifts, promotions, etc.

The MAP policy applies to all advertisements of **Warming Trends™** products in any and all media, including, but not limited to, flyers, posters, coupons, mailers, inserts, newspapers, magazines, catalogs, mail order catalogs, email newsletters, email solicitations, Internet or similar electronic media, television, radio, and public signage.

Warming Trends™ MAP policy is that Resellers will not advertise any product at prices below the published MSRP. This policy does not include advertising a higher price.

If a Reseller or a Distributor violates this Policy, **Warming Trends™** reserves the right to discontinue sales to that Reseller.

Please note that MAP can be adjusted with or without notice at the discretion of **Warming Trends™**. It is the responsibility of the Reseller to keep informed of current MAP and policies related to MAP.

CROSSFIRE™ Brass Burner Compatibility Chart

Choose a burner to learn the standard plate or pan size and coupling, the appropriately sized flex line kit it will need and ignition possibilities.

Not all burners shown below. Call our headquarters at 877 556 5255 with questions or to discuss the compatibility of other burners.
